## ✓ Target audience:

TA(s) delivering intervention, class teacher of relevant year group(s) and SENCO must attend as a team from each school. If SENCO has already attended another TB course then they don't need to attend.

## Area of SEND: SLCN

### Brief course description:

Talk Boost KS1 is a targeted intervention for 4-7 year old children with language that is delayed, including children in Reception classes. The programme is delivered in primary schools by classroom teachers and teaching assistants and provides a structured programme that boost children's progress in language and communication by an average of 9-18 months after a ten week interventions. The intervention materials for the programme cost £500 (which works out at about 50p per child over the year) and need to be ordered directly from the ican at [www.icancharity.org.uk](http://www.icancharity.org.uk)

### Learners' outcomes:

- Have gained an overview of typical development of SLC
- Know how to use a tracker to identify appropriate children who need support
- Be confident in understanding how the intervention works
- Have an understanding of the logistical issues involved in setting up Talk Boost Groups.
