The day is about working onwards from the most fundamental levels of communication to deliver the 'Literacy' curriculum for children with severe or profound learning difficulties . It sets the curriculum strands of literacy including the early development of communication - reading and writing, into relevant contexts for very special pupils - and includes lots of ideas for resources and teaching children who are working right across the range of P scales.

Les will also provide ideas about how to interpret National Curriculum guidance to provide appropriate learning for pupils who are working across the range of P scales.

Every bit as inspirational as 'very special maths' - and probably even more fun.

Full of sensory and social teaching activities, and including using i-Pads for 'sonics', phonics, storytelling and writing.

Cohort: Staff working with pupils across the range of P scales

Cost: £100 for all participants, including lunch and refreshments.

This course will be held at the Access & Inclusion Centre,
Queen Elizabeth II Jubilee School, Kennet Road, W9 3LG
