

ORANGE CLASS WEEKLY PLAN

Science linked with the topic “Earth/space light/sand”. These activities are about communication, turn taking and be able to follow a schedule. The students from orange class really engage with these activities.

WEEK 1

Activity 1

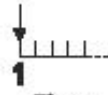

We will recreate the SPACE in a zip bag with cotton, paint and glitter.

Firstly we will follow the schedule, adding all the elements. Once that we finish it is time for communication. Our children have to request the preferred element or elements. If we want them to request we don't have to add a big amount of any of these elements. We give them some for keeping them to request. I attach the schedule and also a communication board for them. We have to engage them exploring with them.

Space

First

open the bag

Next

add blue paint

pink paint

glitter

baby oil

cottons balls

Last

squeeze

the bag

Galaxy

making

Mum

gives

cotton

Dad

pour

blue paint

Grandmother

sprinkle

pink paint

Grandfather

glitter

Uncle

baby oil

Aunt

Activity 2

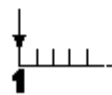

We will recreate the MOON with coconut oil, corn flour and food colouring.

Firstly we will follow the schedule, adding all the elements. Once that we finish it is time for communication. Our children have to request the preferred element or elements. If we want them to request we don't have to add a big amount of any of these elements. We give them some for keeping them to request. I attach the schedule and also a communication board for them. We have to engage them exploring with them.

Moon sand

First

pour

corn flour

Next

add

some

drops

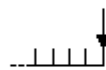

coconut

oil

and food colouring

Last

mix

well

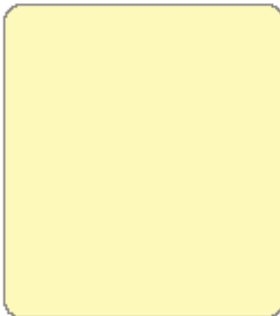

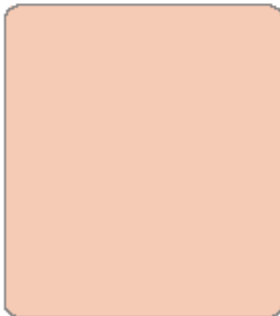

I

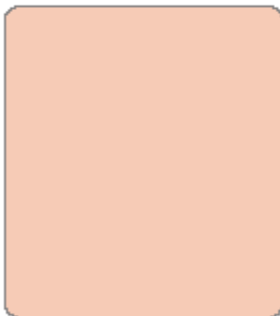

want

coconut oil

cornflour

food colouring

WEEK 2

Activity 1

Edible sand

Make Edible Sand for Sensory Activities

1. Blend crackers in the food processor
2. Smash any chunks of crackers that do not get blended
3. Add to a tray with trucks, shovels, buckets, and other sand toys

Activity 2

We will make Fizzy dough

Firstly we will follow the schedule, adding all the elements. Once that we finish it is time for communication. Our children have to request the preferred element or elements. If we want them to request we don't have to add a big amount of any of these elements. We give them some for keeping them to request. I attach the schedule and also a communication board for them. We have to engage them exploring with them.

Fizzy playdough

First

flour

Next

vegetable oil

and

bicarbonate of soda

Next

food colouring

and

food essence

Next

mix

well

Last

pour

vinegar into the playdough

 <p>Mum</p>	 <p>gives</p>	 <p>Flour</p>
 <p>Dad</p>		 <p>Vegetable oil</p>
 <p>Auntie</p>		 <p>Bicarbonate of soda</p>
