## Class information

Welcome to Green Class! We are very excited to be working this term on the theme of farming and where food comes from. We will first explore food coming from shops and different countries while we read coming to England. We will then learn which foods come from which plants and animals and what animals we can find on farms when we read Charlotte's web in the second half of the term.

We will also develop our early number sense through comparing amounts, matching and sorting fruits and animals and exploring pattern as well as exchanging money in the shop. We are excited to eat the rainbow for healthy eating and how to stay healthy with handwashing and brushing teeth.

## Home school communication

An important part of school is the communication between families and school. Each child has a home/school book which school staff will write in everyday, providing families with information about their day.

We would appreciate any feedback from families about their child's weekend, evening or anything important you would like to share with us.

## Safeguarding

Safeguarding is extremely important to us at College Park School.

If you have any concerns please raise them with your class teacher and/or one of the designated safeguarding leads (DSL).

## Use of visuals

All staff work closely with the speech and language team to ensure our pupils are adequately supported with visual supports, to ensure they have the right communication tools to support their day. These are personalised for each pupil.

We use visuals in the classroom to support with the structure of the day, visuals on lanyards, supporting with transitions around school, in lessons and social stories.

If you would like any support with visuals at home, please let the class teacher know.
