[VI] Modification and adaptation of teaching resources and activities

Outline

This course is designed to increase your skills and confidence in making learning materials and activities fully accessible to students with vision impairments.

Description

During the training you will have a chance to consider best practice with regards to modification strategies and techniques to improve accessibility and independent learning for your students with vision impairments. Topics covered include modification of worksheets, diagrams, exam access, practical activities (e.g. PE, Art, Music), IT and extra-curricular inclusion.

Outcome

You will be able to appropriately modify resources and activities to meet the individual needs of your students with vision impairments and you will be aware of a range of equipment and resources to increase access.
